

**Turbo cups with threads** were specifically designed for grinding and shaping stone and concrete surfaces. Available in 4 and 5 inch sizes, our turbo cups are aggressive cutters at very high speeds, on even the hardest of surfaces. With a 5/8-11 thread, turbo cups are available in coarse, medium, and fine grits.

**Turbo Cups with PCDs** are available in a 5 inch size, and are designed for aggressive coating removal.

**FLEX 1503 Grinder** is an essential tool for small corner work.
